

## COLD FOOD HOLDERS HOLDCOLD™ JARS

Date:

Project:

Quantity:

Item Number:

**Round HOLDCOLD™ Jars**

**Rectangular HOLDCOLD™ Jars**

### Two Year Warranty

Server Products equipment is backed by a two-year limited warranty against defects in materials and workmanship. For our complete warranty statement, please refer to [server-products.com](http://server-products.com)

### Bid Description

HOLDCOLD™ Jars are constructed of durable ABS plastic and filled with a non-toxic refrigerant gel. They are available in (2) styles—round or rectangular. Each style can be purchased in black or white or as a kit of (1) black and (1) white jar.

HOLDCOLD™ Jars help hold cream, toppings or condiments below 41° F (5° C) for up to 12 hours, when placed in an insulated unit and filled with refrigerated product. Place jar in the freezer for 8 hours prior to use.

Round jars are used in an insulated unit that accepts a standard #10 can. This includes Server cream servers, cream holders, and insulated condiment server. Round HOLDCOLD™ Jars have a holding capacity of 2¾ quarts (2.6 L).

Each deep fountain jar is notched to allow the lid to close over a ladle for increased sanitation. They also have molded feet to prevent tipping. Rectangular HOLDCOLD™ Jars work in insulated Server units that hold a standard deep fountain jar such as a two, three or four jar serving bar. Holding capacity is 2¼ quarts (2.1 L).

### Standard Features

- Double-walled construction assures long-lasting cooling
- Eliminates inconvenience and mess of cooling with ice
- Holds cream, toppings or condiments cold for up to 12 hours—longer cooling time saves on labor by reducing jar changeovers
- Round jars fit in insulated Server units that hold a #10 can
- Rectangular jars fit in any Server (2), (3) or (4) jar serving bar—use in place of standard deep fountain jars
- Available in black and white or a kit of (1) each
